**Knowledge Examination**

NAME: \_\_\_\_\_ DATE: \_\_\_\_\_

Circle the letter(s) which correspond to the correct answer(s) for each of the following questions.

1. Which (if any) of the following are not names of the seven major categories of drugs?
  - A. CNS Stimulants
  - B. Inhalants
  - C. Hallucinogens
  - D. Cannabis
  - E. Anti-Anxiety Tranquilizers
  
2. Which of the following categories could induce vertical nystagmus?
  - A. Depressants
  - B. Phencyclidine
  - C. Stimulants
  - D. Narcotic Analgesic
  - E. Hallucinogens
  
3. Which of the following categories of drugs usually will cause the pupils of the eyes to constrict?
  - A. Narcotic Analgesics
  - B. Tranquilizers
  - C. CNS Inhibitors
  - D. Cannabis
  - E. Hallucinogens
  
4. The suspect is supposed to estimate \_\_\_\_\_ seconds during the Romberg Balance test?
  
5. Which of the following drug categories usually will cause the pupils of the eyes to dilate?
  - A. Hallucinogens
  - B. CNS Stimulants
  - C. Narcotic Analgesics
  - D. Phencyclidine
  - E. CNS Inhibitors
  
6. Which three categories of drugs usually induce horizontal gaze nystagmus?  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

Next to each drug in the left column, write the letter of the appropriate category in the right column. (Note: two or more of the drugs may belong to the same category; and some of the listed categories may not be appropriate for any of the listed drugs.)

7. <input type="checkbox"/> Methamphetamines	A.     CNS Stimulants
8. <input type="checkbox"/> Valium	B.     CNS Depressants
9. <input type="checkbox"/> LSD	C.     Phencyclidine
10. <input type="checkbox"/> Demerol	D.     Inhalants
11. <input type="checkbox"/> Toluene	E.     Narcotic Analgesics
12. <input type="checkbox"/> Hashish	F.     Hallucinogens
13. <input type="checkbox"/> PCP	G.     Cannabis

14. The practice of ingesting drugs from two or more drug categories is called?

- A.     Synergism
- B.     Drug loading
- C.     Speedballing
- D.     Riding the roller coaster
- E.     Polydrug use

15. True or False The normally white portion of the eyeball of a suspect under the influence of Cannabis, will be markedly reddish.

16. A person under the influence of a Hallucinogen may report that he or she "hears colors". This is an example of a phenomenon known as \_\_\_\_\_.

- A.     Synesthesia
- B.     Synchronism
- C.     Synarthrosis
- D.     Synergism
- E.     Synecdoche

17. Name at least three common methods of ingesting drugs.

---

---

---

18. Which drug category or categories does not affect pupil size?

---

---

---

19. Bruxism is most commonly associated with which drug category?

---

20. The phrase "on the nod" and droopy eyelids are most commonly associated with which drug category?

---

### ANSWER KEY

NAME: \_\_\_\_\_ DATE: \_\_\_\_\_

Circle the letter(s) which correspond to the correct answer(s) for each of the following questions.

1. Which (if any) of the following are not names of the seven major categories of drugs?

- A. CNS Stimulants
- B. Inhalants
- C. Hallucinogens
- D. Cannabis
- E. **Anti-Anxiety Tranquilizers**

2. Which of the following categories could induce vertical nystagmus?

- A. **Depressants**
- B. **Dissociative Anesthetics**
- C. Stimulants
- D. Narcotic Analgesic
- E. Hallucinogens

3. Which of the following categories of drugs usually will cause the pupils of the eyes to constrict?

- A. **Narcotic Analgesics**
- B. Tranquilizers
- C. CNS Inhibitors
- D. Cannabis
- E. Hallucinogens

4. The suspect is supposed to estimate 30 seconds during the Romberg Balance test?

5. Which of the following drug categories usually will cause the pupils of the eyes to dilate?

- A. **Hallucinogens**
- B. **CNS Stimulants**
- C. Narcotic Analgesics
- D. Phencyclidine
- E. CNS Inhibitors

6. Which three categories of drugs usually induce horizontal gaze nystagmus?

CNS Depressants

Dissociative Anesthetics

Inhalants

Next to each drug in the left column, write the letter of the appropriate category in the right column. (Note: two or more of the drugs may belong to the same category; and some of the listed categories may not be appropriate for any of the listed drugs.)

7. <u>A</u> Methamphetamines	A. CNS Stimulants
8. <u>B</u> Valium	B. CNS Depressants
9. <u>F</u> LSD	C. Phencyclidine
10. <u>E</u> Demerol	D. Inhalants
11. <u>D</u> Toluene	E. Narcotic Analgesics
12. <u>B</u> Hashish	F. Hallucinogens
13. <u>C</u> PCP	G. Cannabis

14. The practice of ingesting drugs from two or more drug categories is called?

A. Synergism  
B. Drug loading  
C. Speedballing  
D. Riding the roller coaster  
E. **Polydrug use**

15. **True** or False The normally white portion of the eyeball of a suspect under the influence of Cannabis, will be markedly reddish.

16. A person under the influence of a Hallucinogen may report that he or she "hears colors". This is an example of a phenomenon known as \_\_\_\_\_.

A. **Synesthesia**  
B. Synchronism  
C. Synarthrosis  
D. Synergism  
E. Synecdoche

17. Name at least three common methods of ingesting drugs.

Oral \_\_\_\_\_ Nasal (snorting) \_\_\_\_\_ Smoking \_\_\_\_\_  
Inhaling, Injecting

18. Which drug category or categories does not affect pupil size?

CNS Depressants \_\_\_\_\_

Dissociative Anesthetics \_\_\_\_\_

Inhalants \_\_\_\_\_

19. Bruxism is most commonly associated with which drug category? CNS Stimulants \_\_\_\_\_

20. The phrase "on the nod" and droopy eyelids are most commonly associated with which drug category?

Narcotic Analgesics \_\_\_\_\_
